NEA 18 & NEA 18 VGE

Investing in bold thinkers and big ideas for more than 40 years

Q2 2021
Disclaimer

This presentation (the “Presentation”) contains confidential and proprietary information and has been provided with the express understanding that its distribution, or the divulgence of any of its contents to any person other than the person to whom it was originally delivered and such person’s advisors, without the prior written consent of New Enterprise Associates (together with its advisory affiliates, “NEA”) is prohibited. This Presentation is for information and discussion purposes only and does not constitute an offer to sell or a solicitation of an offer to purchase interests in any current or future investment vehicles managed by NEA (each a “Fund” or “NEA Partnership” and collectively, the “Funds” or “NEA Partnerships”). A private offering of interests in any Fund shall be made only pursuant to respective Fund’s private placement memorandum (as supplemented or amended from time to time, the “PPM”), limited partnership agreement (as supplemented or amended from time to time, the “Partnership Agreement”) and subscription document (the “Subscription Document” and together with the PPM and the Partnership Agreement, the “Governing Documents”), which describe certain risks related to such an investment, as well as other important information. Furthermore, nothing in this Presentation should be construed as a recommendation, representation of suitability or endorsement of any particular security or investment. Each recipient should perform its own independent investigation and analysis of NEA and the Funds, and should carefully review the Governing Documents before making any decision to purchase any interests a Fund. The interests in any Fund are illiquid, as there is no secondary market for interests in the Funds and none is expected to develop. There are restrictions on transferring interests in a Fund, investments may be leveraged and the investment performance may be volatile. This Presentation does not constitute a part of any respective Fund’s Governing Documents.

The pages found within the Presentation herein, whether or not marked “CONFIDENTIAL”, contain proprietary and highly confidential information, including trade secret, commercial and financial information regarding the Funds and the business, operations and financial condition of their respective portfolio companies (the “Portfolio Companies”). The information found within this Presentation is for use only by our limited partners and shall be maintained in strict confidence. Any disclosure of this information could cause competitive harm to NEA, the Funds, and their Portfolio Companies. By receiving the information found within this Presentation, each limited partner agrees that this information (i) shall be used by such limited partner solely in further of its interests as a limited partner and shall not be used by such limited partner for any other purposes, (ii) shall not, without the prior express written consent of the managing general partner at NEA, be reproduced in any manner for, or disclosed to, any other person, and (iii) shall be retained for only so long as is necessary. The provisions of these terms and conditions are supplement to, and do not replace, any existing confidentiality agreement, if any, between you and NEA.

Statements contained in this Presentation are based on current expectations, estimates, projections, opinions and beliefs of NEA and/or NEA’s senior management on the date hereof. Such statements involve known and unknown risks and uncertainties, and undue reliance should not be placed thereon. Additionally, some of the matters discussed in this Presentation include forward looking statements. NEA has tried to identify forward looking statements by use of terminology such as “may,” “will,” “should,” “could,” “would,” “predicts,” “potential,” “continue,” “expects,” “anticipates,” “future,” “intends,” “plans,” “believes,” “estimates” and similar expressions. Forward-looking statements are subject to a number of risks and uncertainties, some of which are beyond the control of NEA, including among other things, the risks listed in both the respective Fund’s PPM and Subscription Document. Actual results, performance, prospects or opportunities could differ materially from those expressed in or implied by the forward-looking statements. Additional risks of which NEA is not currently aware also could cause actual results to differ. In light of these risks, uncertainties and assumptions, prospective investors should not place undue reliance on any forward-looking statements. The forward-looking events discussed in this Presentation may not occur. NEA undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Neither the Securities and Exchange Commission nor any other regulator has approved, passed on or endorsed the merits of any investment opportunity that may be described herein, nor have any foregoing authority confirmed the accuracy or determined the adequacy of this document. Any representation to the contrary is a criminal offense.

All information contained herein speaks as of June 30, 2021 unless otherwise noted. The Funds, NEA and their respective affiliates, members, partners, stockholders, managers, directors, officers, employees and agents do not undertake any obligation to update or amend any of the information herein.

See “END NOTES: ASSUMPTIONS” at the end of this Presentation for additional information, including important information regarding performance, projections and use of select investments.
• Deep domain expertise in key sectors of innovation and secular growth
• Consistent track record investing across all stages

We seek to leverage seasoned venture partners to supercharge portfolio company growth

I joined the firm because NEA understands how to work with visionary entrepreneurs to build successful enterprises. I bring a different set of experiences than my partners, but together, we provide the kind of support entrepreneurs want and need.

- NEA Venture Partner on both the technology and healthcare investing teams
- CEO of GE for 16 years
- Named one of the “World’s Best CEOs” three times by Barron’s
- GE named “America’s Most Adired Company” by Fortune Magazine during his tenure

NEA PORTFOLIO COMPANY BOARDS:

NEA pairs our portfolio companies with what we believe is best combination of talent to achieve goals.

**MELISSA TAUNTON**
Talent Partner
Supported on multiple talent searches including CFO & Head of People

**SCOTT SANDELL**
Managing General Partner
Sourced Cloudflare from network and serves as lead Director

**CARMEN CHANG**
General Partner & Head of Asia
Aided in Cloudflare’s China expansion strategy, including negotiating Baidu partnership

**RON BERNAL**
Venture Partner
Recruited Head of Engineering through personal network

**KATE BARRETT**
Marketing Partner
Made numerous media introductions, helped secure coverage in top-tier publications, broadcast guest host role

**BROOKE SEAWell**
Venture Partner
Assisted with CFO search and establishing finance processes

**SHANNA HENDRIKS**
Director of Business Development
Introduced Cloudflare to over 20 Federal CIOs

*Invested Nov 2010, NEA 13*

The investment presented herein is for illustrative purposes only, has been selected in order to provide an example of how NEA pairs portfolio companies with NEA talent and does not purport to be a complete list thereof. Cloudflare was selected as it represents the largest investment in NEA 13 based on total cost. It should not be assumed that investments made in the future will be comparable in quality or performance to the investments described herein. Past performance is not necessarily indicative of future results. Please see Disclaimers at the beginning of this Presentation as well as End Notes for important information regarding the use of performance herein. A full list of the Funds’ investments is available upon request. Venture Partners and Special Partners can either be full-time or part-time employees or consultants of NEA, depending on their role and level of responsibility. None of the compensation for such individuals noted gets charged to the funds as fund expenses. They may also be separately compensated by underlying portfolio companies with no offset to management fees charged to the funds.

Deploying an integrated and refined investing strategy, NEA seeks to optimize returns at scale across every stage.

We are optimally structured, seeking to identify the most promising early-stage companies...

**SEED / INCUBATION**
Take more risk with company incubation

**TRADITIONAL VENTURE**
Take more risk, target high ownership

**CONVICTION**
Invest follow-on capital in few concentrated positions

**VENTURE GROWTH**
Curated portfolio opportunistically investing first dollars in growth round

...and invest significant capital as growth accelerates
NEA is raising two funds to increase focus on early stage and capitalize on expanding growth opportunity

- Early-stage Expertise
- Integrated Sourcing
- Single Team/Alignment
- Company Building
- Scale
NEA Platform Advantage

- Proven, cycle-tested team with LP-first culture
- Deep domain expertise in growing markets of innovation in technology and healthcare
- Expansive network honed over 4 decades
- Consistent performance at scale investing from seed stage to Venture Growth Equity
End Notes
ASSUMPTIONS

Unless otherwise indicated, all portfolio related numbers contained in this Presentation are calculated using June 30, 2021 unaudited financial statements.

Certain changes in valuation reflect a change in accounting principle adopted by the NEA Partnerships for the year ended December 31, 2019 to recognize the fair value of contractual rights to payments (commonly referred to as “earn-outs”).

For purposes of presenting track record information in this Presentation, the following conventions have been used: (i) valuations of private company securities and securities that are otherwise subject to legal or contractual limitations on marketability have been determined by NEA in good faith in accordance with U.S. generally accepted accounting principles as of the date of determination; (ii) valuations of public company securities that are not subject to legal or contractual limitations on marketability have been based upon the closing price as of the date of determination, without regard to the size of holdings relative to market trading volume; (iii) valuations of securities distributed by NEA Partnerships have been determined as of the date of distribution based upon the valuation provisions for in-kind distributions in the applicable NEA Partnership’s limited partnership agreement (which generally provide for such valuation to be determined based on the closing price of such securities on the date of distribution, in the case of certain NEA Partnerships, or on an average of closing prices over a certain period of time preceding the distribution, in the case of other NEA Partnerships); (iv) “IRRs” (including Net LP IRRs) and “multiples” (including LP TVPIs) have been calculated using the date of determination as the terminal date and assuming a complete sale of remaining assets as of such date at a valuation determined in accordance with the preceding principles; (v) Net LP IRRs and LP TVPIs have been calculated as of June 30, 2021 (or such other date as may be specified herein), taking into account management fees and other expenses and giving effect to a reduction in the amounts distributable to the limited partners in respect of the general partner’s “carried interest”, and Net LP IRRs for each earlier NEA Partnership have been calculated based on the quarterly cash flows (including the distribution value of in-kind distributions) from and to all limited partners assuming that all inflows and outflows occurred on the last day of the quarter and (vii) the multiple and IRR performance data contained in this Presentation in respect to one or more specific investments are presented on a gross return basis (before giving effect to management fees, carried interest or other expenses), and with respect to any such gross IRR figures, have been calculated based on a monthly cash flow basis (including the distribution value of in-kind distributions) assuming that all inflows and outflows occurred on the last day of the month.

Certain of the information contained herein, particularly in respect of market data, economic and portfolio company related data, is from third-party sources. Similarly, this Presentation discusses general activity or industry or sector trends and should not be construed as research or investment advice. While NEA believes such sources to be reliable, neither the Funds nor NEA nor any of their respective affiliates nor employees have updated any such information through the date hereof or undertaken any independent review of such information. NEA does not make any representation or warranty, express or implied, with respect to the fairness, correctness, accuracy, reasonableness or completeness of any of the information contained herein (including but not limited to economic, market or other information obtained from third parties), and it expressly disclaims any responsibility or liability therefor.

Third-party logos and vendor information included herein are provided for illustrative purposes only. Inclusion of such logos does not imply affiliation with or endorsement by such firms or businesses. There is no guarantee that NEA, the Funds or the current or future portfolio companies of the Funds will work with any of the firms or businesses whose logos are included herein in the future.
Important Information Regarding Performance:

Past or projected performance is not necessarily indicative of future results, and there can be no assurance that any Fund or any Portfolio Company will achieve comparable results to those presented herein, that any Fund will be able to implement its investment strategy or achieve its investment objectives or that the returns generated by any investment will equal or exceed any past or projected returns presented herein. There can be no assurance that investors will not lose any or all of their invested capital.

Performance results in this Presentation give effect to the recycling by the applicable NEA partnership of certain proceeds from the disposition of investments.

Current and historical returns contained in this Presentation may include unrealized valuations of investments. Valuations of unrealized investments are based on assumptions and factors (including, for example, as of the date of the valuation, average multiples of comparable companies, and other considerations) that NEA believes are reasonable under the circumstances relating to each particular investment. However, there can be no assurance that unrealized investments will be realized at the valuations indicated herein or used to calculate the returns contained herein, and transaction costs connected with such realizations remain unknown and, therefore, are not factored into such calculations. Estimates of unrealized value are subject to numerous variables that change over time. The actual realized returns on unrealized investments will depend on, among other factors, future operating results, the value of the assets and market conditions at the time of disposition, any related transaction costs and the timing and manner of sale, all of which may differ from the assumptions and circumstances on which NEA’s valuations are based. Therefore, no investor has received (nor, due to the imposition of Fund-level fees, expenses and carried interest, among other factors, will any investor receive) the stated returns, and the actual realized return on unrealized investments or realized by any investor will differ materially from the performance information indicated herein. No assumption should be made that investments identified and discussed herein were or will be profitable, or that investments made in the future will be comparable in quality or performance to the investments described therein.

Aggregate, composite, average and/or cumulative performance data and/or results herein represents aggregate data across multiple Funds and Portfolio Companies. However, such investments were made during different economic cycles and any such performance and other data reflects neither a specific Fund nor a group of investments managed as a single portfolio. The actual returns realized by any investor in a Fund may vary based on the timing of capital contributions and distributions and may differ materially from the returns reflected or contemplated in the composite data presented herein. Additionally, certain aggregate, composite and/or cumulative performance data includes unrealized investments. Actual results may vary materially and no individual investor has received the investment performance indicated by such aggregate, composite or cumulative performance data.

Important Information Regarding Data Sources:

The Standard & Poor’s 500 Index (the “S&P 500”) sets forth the performance of a well-known broad-based stock market index, assuming reinvestment of dividends. The S&P 500 contains only seasoned equity securities.

The Russell 2000 Index (the “Russell 2000”) seeks to measure the performance of the small-cap segment of the U.S. equity market, including the reinvestment of dividends. The Russell 2000 Index includes approximately 2000 of the smallest publicly traded securities based on a combination of their market capitalization and current index membership, with a balanced selection of issuers across industries and subsectors. This index is reconstituted annually, and is updated quarterly to reflect inclusions of IPOs.

Cambridge Associates LLC (CA) has established a database to monitor investments made by venture capital and other alternative asset. Pooled return aggregates all cash flows and ending NAVs in a sample to calculate a dollar-weighted return. (minimum 3 funds) The mPME calculation is a private-to-public comparison that seeks to replicate private investment performance under public market conditions. The public index’s shares are purchased and sold according to the private fund cash flow schedule, with distributions calculated in the same proportion as the private fund, and the mPME NAV (the value of the shares held by the public equivalent) is a function of mPME cash flows and public index returns. The mPME attempts to evaluate what return would have been earned had the dollars been deployed in the public markets instead of in private investments while avoiding the “negative NAV” issue inherent in some PME methodologies. “Value-Add” shows (in basis points) the difference between the actual private investment return and the mPME calculated return.
Important Information Regarding Use of Select Investments

The use of select investments and case studies presented herein are for illustrative purposes only and have been presented in order to provide an illustration of the types of investments made by NEA. It should not be assumed that investments made in the future will be comparable in quality or performance to the investments described herein. The information presented in these investment summaries and case studies is based primarily on internal projections, market research and other analysis conducted by NEA, management and other representations of applicable portfolio companies, and third parties. Except where otherwise indicated, such information has not been updated subsequent to the making of such analysis or the relevant date specified, is not intended to provide an update of company performance, and at the time made was and remains today subject to a number of actual contingencies that generally are not discussed herein. The materials included in this Presentation are not, and are not intended to be, representative of NEA’s historical investment track record, including the footnotes and definitions contained therein. A complete list of all investments made by the Funds from their inception, including investment performance, can be found within NEA’s historical track record, which is available upon request. There can be no assurances that any plans described in the investment summaries and cases studies will be realized on the terms expressed herein or at all, and all such plans are subject to uncertainties and risks.

The metrics regarding select aspects of the Portfolio Companies’ operations were selected by NEA on a subjective basis. Such metrics are provided solely for illustrative purposes to demonstrate elements of the Portfolio Companies’ businesses, are incomplete, and are not necessarily indicative of the Portfolio Companies’ performance or overall operations. There can be no assurance that historical trends will continue throughout the life of any Fund.

GEO, Seed, and NR companies refer to the underlying investments made through wholly-owned investment entities created for specific investment purposes. GEO refers to the following: Growth Equity Opportunities 17, LLC (NEA 17), Growth Equity Opportunities Fund V, LLC (NEA 16), Growth Equity Opportunities Fund IV, LLC (NEA 15), Growth Equity Opportunities Fund III, LLC (NEA 14), Growth Equity Opportunities Fund II, LLC (NEA 13). Seed refers to the following: neaseed IV IIC (NEA 16), neaseed III IIC (NEA 15), neaseed II IIC (NEA 14), neaseed I IIC (NEA 13). NR refers to the following: NR Investments II (NEA 14), NR Investments I (NEA 13).

Important Information Regarding Effects of COVID-19

The full impact of COVID-19 is particularly uncertain and difficult to predict, and has significant potential to negatively impact performance. COVID-19 may have an adverse impact on the business of a Portfolio Company or a Fund, asset prices, public and private markets, the availability of credit and other capital to businesses and overall economic and commercial conditions, all of which could impact the ability of NEA to adequately assess and react to ongoing and future actual or potential downside risks to a Portfolio Company and could severely impact the future performance of a Portfolio Company. Similarly, it may limit the ability of NEA to source, diligence and execute the company and/or any add-on investments.

EACH RECIPIENT ACKNOWLEDGES AND AGREES THAT IT IS RECEIVING THIS INFORMATION ONLY FOR THE PURPOSES STATED ABOVE AND SUBJECT TO ALL APPLICABLE CONFIDENTIALITY OBLIGATIONS AS WELL AS THE UNITED STATES SECURITIES LAWS PROHIBITING ANY PERSON WHO HAS RECEIVED MATERIAL, NON-PUBLIC INFORMATION FROM PURCHASING OR SELLING SECURITIES OF THE APPLICABLE ISSUER OR FROM COMMUNICATING SUCH INFORMATION TO ANY OTHER PERSON UNDER CIRCUMSTANCES IN WHICH IT IS REASONABLY FORESEEABLE THAT SUCH PERSON IS LIKELY TO PURCHASE OR SELL SUCH SECURITIES.
